How To Optimise Your Hotel Business

On Google My Business Listing?

Update Your Hotel Information

Keeping your hotel information updated helps avoid confusion for customers searching for the hotel online. This ensures potential guests can easily find and contact your hotel, leading to more bookings.

Select Hotel Attributes and Details

Highlighting what makes your hotel unique can quickly improve its visibility and relevance in search results. This will make your hotel stand out from the rest and make you a leader in the hotel industry.

Add High-Quality Photos And Videos

Adding captivating photos and videos of your hotel rooms, amenities, and common areas will help attract new customers because of the visual impression. This influences their booking decisions, leading to an increase in customers.

Build Your FAQ Page

Addressing common guest queries upfront reduces the number of inquiries by guests. This helps with better guest satisfaction, leading to repeat customers and a higher retention rate.

Update Health And Safety Attributes

Apparent health and safety information shows confidence and commitment to the guest's well-being. This encourages more bookings by reassuring potential guests that you are the right choice in terms of safety and health for their stay in the post-pandemic world.

Share Announcements With Google Page

Keep your listing and announcements about offers and other details up-to-date. With ongoing promotions and events, this will attract attention, increasing direct bookings and visibility.

How To Make Your **Hotel Business**

Visible With Google Listings?

★ Respond To All Questions

Answer all customers' questions to show you care about their concerns and want to build a strong relationship with them. This will also help you highlight your hotel's strengths and make more people aware of the brand.

Ensure to tailor each response and keep it genuine and polite to improve guest perceptions of the hotel.

★ Integrate Your Website With Your Profile

Integrating your hotel's website with your Google My Business profile allows interested guests to find your hotel details directly.

This increases the website's visibility, and since they can also book directly from the website based on the booking options, it increases direct bookings.

★ Encourage Guests To Leave Reviews

Ask the customers for reviews directly by explaining how they can help the business. You can ask them for a review during check-out or in a follow-up thank-you email after they leave. But before that, make sure to give them a remarkable experience they would like to share with the others in the review through excellent customer service.

★ Use Geotagging And Keyword Optimization

Utilise geotagging with location-specific tags and keyword optimization to improve local search visibility. This will make it easier for potential guests to find your hotel in relevant Google searches.

Keyword optimization will also help increase your site's ranking in search engine results pages (SERPs), attracting more organic traffic.

★ Create And Manage Hotel Advertising Campaigns

Create hotel advertising campaigns by defining goals and targeting relevant demographics and locations.

Use compelling ad copy highlighting unique features and advertise on platforms like Google Ads, social media, and meta-search engines for better reach and engagement. Once you have the results, you can monitor and optimize them to maximize ROI.

How To Improve Google Ratings For

Your Hotel?

Before booking any hotel, customers often read reviews to learn about the other guests' experiences. These Google reviews help customers determine whether the hotel is trustworthy and credible, influencing their booking decisions. Let's discuss strategies to encourage Google reviews for your hotel.

- ★ Request reviews during check-out when guests are satisfied.
- ★ Send follow-up emails that include a link to your Google review page.
- ★ Offer rewards like discounts or freebies to customers for leaving reviews.
- ★ Engage with guests on social media and encourage them to share their experiences.
- ★ Train staff to mention the importance of reviews and ask guests personally.
- ★ Put a review card on each table, inviting guests to leave their feedback on Google.
